AB - J06122803 Resin absorbing capacity of radiation ray and
electromagnetic wave is improved by (a) a monomer unit comprising
mainly a methacrylate and (b) at least one of monomer units comprising
salts of at least one of rare earth elements comprising La, Ce, Pr,
Dy, Tm, Yb, Lu with an unsaturated fatty acid of $\text{CH}_2=\text{C}(\text{R}_1)\text{-COOH}$ or
 $\text{CH}_2=\text{C}(\text{R}_1)\text{-CO}_2\text{-R}_2\text{-OCO-R}_3\text{-COOH}$ (wherein $\text{R}_1 = \text{H}$, 1-3C hydrocarbon
moiety, $\text{R}_2 = 2\text{-6C}$ alkylene, $\text{R}_3 = 2\text{-6C}$ saturated or unsaturated
hydrocarbon moiety).

- Pref. resin comprises 0.001-35 wt.% of a rare earth element based on
the resin by wt. The mixt. is polymerised in a mould, with (c) a
solvent with solubility for the above components, containing at least
one of $\text{R}_1\text{-COOH}$, $\text{R}_2\text{-OCO-R}_3\text{-COOH}$, $\text{CH}_2=\text{C}(\text{R}_4)\text{-CO}_2\text{-}(\text{A}_1\text{-O-})_n\text{H}$,
 $\text{CH}_2=\text{C}(\text{R}_3)\text{-CO}_2\text{-R}_6\text{-OH}$, $\text{R}_7\text{-OH}$, $\text{R}_8\text{-}(\text{A}_2\text{-O-})_m\text{H}$ (wherein $\text{R}_1 = \text{H}$, 1-20C
hydrocarbon moiety, $\text{R}_2=\text{H}$, 1-9C hydrocarbon moiety, $\text{R}_3=\text{H}$, 1-4C
saturated or unsaturated hydrocarbon moiety, $\text{R}_4=\text{H}$, methyl, $\text{A}_1=2\text{-6C}$
alkylene, $n=0$, integer of 1-10, $\text{R}_3=\text{H}$, methyl, $\text{R}_6=2\text{-6C}$ alkylene,
 $\text{R}_7=3\text{-10C}$ saturated or unsaturated hydrocarbon moiety, $\text{R}_8=\text{OH}$, 1-10C
saturated or unsaturated hydrocarbon moiety, $\text{A}_2=2\text{-4C}$ alkylene, $m =$
integer of 1-10) and (d) a polymerising catalyst.

- USE/ADVANTAGE - The resin has selective absorption of radiation rays
and electromagnetic waves caused by rare earth elements, satisfactory
weatherability and improved refractive index. It can be used as an
optical filter, lenses, lighting cover, screen for imaging, protecting
filter for radiation ray, scintillator, and luminescent
material.(Dwg.0/1)
